## PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with professional experience in software development and IT engineering, along with practical cybersecurity training and hands-on SOC lab projects. Skilled in Python programming, web development, REST APIs, database management, IT operations, SIEM monitoring, log analysis and threat detection using Splunk and Wazuh. Experienced in technical support, system troubleshooting and software-related project activities. Interested in opportunities in Software Development, Python Development, IT Support and Cybersecurity.

## TECHNICAL SKILLS

- **Programming & Development:** Python, JavaScript, HTML5, CSS3, Flask, FastAPI, REST APIs
- **Cybersecurity & SOC:** SIEM Monitoring, Splunk Enterprise, Wazuh, Log Analysis, Alert Monitoring, Threat Detection, Incident Analysis
- **Databases**: MySQL, PostgreSQL, MongoDB, Firebase
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Splunk Universal Forwarder
- **Systems & Networking:** Linux, Windows, TCP/IP, DNS, DHCP, HTTP/HTTPS, System Troubleshooting

## PROFESSIONAL EXPERIENCE

**Software Engineer – Remote**
Fire Pro Technical Services, UAE *2024 – Present*

- Contribute to software development and Python-related project tasks.
- Support software and system-related technical requirements.
- Assist with technical problem-solving and day-to-day operational activities.

**IT Engineer**
Secure Grab Technical Services LLC, Dubai, UAE *2023 – 2024*

- Supported day-to-day IT operations, system handling and technical troubleshooting.
- Assisted with software management and database-related activities.
- Maintained customer information, records and operational data.
- Responded to customer enquiries and supported service-related requirements.
- Contributed to Python-related project tasks.

## PROJECTS

**Library Management Web Application**

- Developed a web-based application to manage library operations and records.

**Hostel Leave Application Management System**

- Developed a web application to manage student leave requests and related information.

**Splunk Universal Forwarder Log Collection & Monitoring Lab**

- Installed and configured Splunk Universal Forwarder on Windows and Linux systems.
- Forwarded endpoint logs to Splunk Enterprise for centralized monitoring.
- Worked with indexes, log inputs and SPL searches.
- Monitored authentication events and security activities.

**Wazuh SIEM Log Monitoring & Threat Detection Lab**

- Installed and configured Wazuh SIEM for security monitoring.
- Monitored and analysed system and security logs.
- Practised identifying suspicious activities and security events.
- Performed threat detection and incident analysis.

**Python Password Strength Checker**

- Developed a password security tool using Python
- Checked password length and complexity.
- Validated uppercase, lowercase, numbers and special characters.
- Classified passwords as Weak, Medium or Strong.

## CERTIFICATIONS

- **Certified SOC Analyst (CSA) –** EC-Council (2026)
- **Certified Infrastructure & Cyber Security Analyst –** RedTeam Hacker Academy, Kochi (2026)
- **Python Programming Certification –** Trinity Software Technologies (2023)

## EDUCATION

**Bachelor of Technology (B.Tech) - Computer Science and Engineering**

Rajadhani Institute of Engineering & Technology, Attingal

APJ Abdul Kalam Technological University

2019-2023
