PROFESSIONAL SUMMARY

EC-Council Certified SOC Analyst (CSA) with hands-on experience in Security Operations Center (SOC) practices, SIEM monitoring, threat detection, incident response, and cybersecurity investigations. Skilled in Splunk, Wazuh, log analysis, security monitoring, and Python automation. Experienced in analyzing security events, investigating alerts, and supporting secure IT operations. Seeking opportunities as a SOC Analyst, Cybersecurity Analyst, or Information Security Analyst.

TECHNICAL SKILLS

- **SIEM & Log Analysis:** Experience with Splunk and Wazuh for log monitoring, event correlation, and security investigations.
- **Security Operations:** Knowledge of SOC monitoring, alert triage, incident response, and threat analysis.
- **Threat Detection:** Skilled in identifying suspicious activities, security events, and Indicators of Compromise (IoCs).
- **Splunk Administration & Log Management:** Hands-on experience with Splunk Enterprise, Universal Forwarder, log ingestion, SPL queries, and dashboards.
- **Wazuh SIEM Administration:** Experience in security monitoring, endpoint visibility, alert analysis, and incident investigation.
- **Linux Administration:** Knowledge of user management, service monitoring, log analysis, and system troubleshooting.
- **Networking:** Understanding of TCP/IP, DNS, DHCP, HTTP/HTTPS, routing, switching, and firewall concepts.
- **Programming & Automation:** Experience with Python scripting for automation and security-related tasks.
- **Databases:** Hands-on experience with MySQL, PostgreSQL, MongoDB, and Firebase.
- **Tools & Platforms:** Splunk Enterprise, Splunk Universal Forwarder, Wazuh, Git, GitHub, Postman, VS Code, Linux, Windows.

PROJECTS

Splunk Universal Forwarder Log Collection and Monitoring Lab

- Installed and configured Splunk Universal Forwarder on Windows and Linux systems.
- Forwarded endpoint logs to Splunk Enterprise for centralized log management.
- Configured indexes and log inputs for effective data ingestion.
- Monitored authentication events and security activities.
- Performed threat detection and log analysis using Splunk Search Processing Language (SPL).
- Developed dashboards and reports to support SOC monitoring and investigations.

Wazuh SIEM Log Monitoring and Threat Detection Lab

- Installed and configured Wazuh SIEM for security monitoring
- Monitored and analyzed system and security logs
- Identified suspicious activities and security events

- Performed threat detection and incident analysis

Python Password Strength Checker Tool

- Developed password security tool using Python
- Validated password length and complexity
- Detected uppercase, lowercase, numbers, and special characters
- Classified passwords as Weak, Medium, or Strong

EXPERIENCE

IT Engineer

Secure Grab Technical Services LLC, Dubai, UAE

2023 – 2024

- Monitored IT systems and supported secure operations
- Assisted in system troubleshooting and issue resolution
- Developed Python scripts for automation
- Supported database management
- Maintained system reliability and performance

CERTIFICATIONS

Certified Infrastructure & Cyber Security Analyst
